

## QA Professional, SmartPractice, Hillerød

SmartPractice Denmark develops, manufactures and distributes innovative patch testing medicinal products, ancillary supplies, and world class customer support and education. SmartPractice is the global market leader for contact allergy patch testing, everyday living the motto “because patients deserve a diagnosis”.

SmartPractice’s 45 employees are located in Hillerød, and is now manning up by a new QA Professional to support the QA area across the organization for present and pipeline products and processes. The position reports to the Director of QA of SmartPractice Denmark, and offers great opportunities for personal and professional development.

### ABOUT THE POSITION

You will be part of the QA department with currently five other highly skilled, experienced and motivated colleagues.

Your main areas of responsibility will be:

- Handling QA matters related to manufacturing and laboratory work
- Handling distributor/customer issues and inquiries related to QA
- Preparing QA documentation and reporting, including approving changes, deviations and instructions
- Participating in self inspections and audits (FDA, LMS, PMDA ...)
- Review batch documentation
- Set direction for quality and compliance based on regulatory requirements

### CANDIDATE PROFILE

As a person you thrive on working with a broad responsibility and managing multiple tasks simultaneously. A great working environment is important to you, and you contribute with positivity and a can-do attitude to create passion and job satisfaction around you.

Further you:

- Hold a relevant educational background
- Possess extensive experience from QA in Pharma
- Preferably have experience from pharmaceutical manufacturing and laboratory work
- Are detail oriented and have solid decision-making skills
- Possess excellent communications skills (verbal, written, listening)
- Meet your deadlines with a structured approach to maintain an overview - even in a changing and busy environment, where priorities can be changed quickly.

### APPLICATION

Feel free to call Lotte Tolstrup, Search & Selection Group (cell 40329734) for further information. Candidates are interviewed continuously, therefore please submit your application as soon as possible to [Lotte@s-sgroup.dk](mailto:Lotte@s-sgroup.dk).
